

Intro

Thank you for participating in our survey!

Many approaches have been established for documenting data that could be potentially used for developing artificial intelligence (AI) or machine learning (ML) models. Such approaches include datasheet, healthsheet, data card, data nutrition label, and accountability documentation. Their goal is for the data generators to transparently document the creation, use, maintenance, and other information about their data so that AI/ML developers can develop their models responsibly, meaning in a way that addresses ethical issues (e.g., racial biases).

Artificial Intelligence Ready and Equitable Atlas for Diabetes

Insight ([AI-READI](#)) is a data generation project under the National Institutes of Health (NIH) funded Bridge2AI Program. Its mission is to generate data, establish best practices, and develop tools to enhance future AI-driven research in diabetes. As part of AI-READI, we are currently evaluating the suitability of these documentation approaches for clinical research datasets, i.e., set of medical data collected from human subjects for any purpose (purely research, clinical trials, etc.). To help with that, we are asking data generators (i.e. people collecting clinical research datasets) and data consumers (i.e. people using clinical research datasets for developing AI/ML models) to review these approaches in this survey. We appreciate your input!

Note: The survey should take 10-15 minutes to complete. It is anonymous. We recommend completing this survey from a computer for optimal convenience. If you have any questions about this survey please message Dr. Bhavesh Patel (bpatel@calmi2.org).

About you

About you

What is the highest level of education you have completed?

Associates or technical degree

Bachelor's degree

Graduate or professional degree (MA, MS, MBA, PhD, JD, MD, DDS etc.)

Other (please specify below)

What is your current affiliation type?

Academia

Industry

Government

Other (please specify below)

What is your current position/role?

Undergraduate student

Graduate student (including professional school student)

Postdoc

Staff member (including research/academic/teaching staff)

Faculty member

Other (please specify below)

How many years of experience do you have in your current position/role?

Less than 1 year

1 to 5 years

More than 5 years

Describe your areas of expertise with a few comma-separated keywords (e.g., AI/ML, Ophthalmology, Data Science, Bioengineering)

Have you heard about any of these data documentation approaches?
(check all that apply)

- ☐ Datasheet
- ☐ Healthsheet
- ☐ Data card
- ☐ Data nutrition label
- ☐ Accountability documentation
- ☐ None of the above

Have you used or prepared any of these data documentation approaches? (check all that apply)

- ☐ Datasheet
- ☐ Healthsheet
- ☐ Data card
- ☐ Data nutrition label
- ☐ Accountability documentation
- ☐ None of the above

Please select the description that most applies to your role. Note that the rest of the survey will depend on your response.

- ☐ I am a data generator: I collect, help collect, manage, and/or help manage clinical research data
- ☐ I am a data consumer: I use clinical research data for developing AI/ML models and/or prepare/curate data for that purpose
- ☐ I am both a data generator and data consumer (Note: The survey might take more time as you will be asked to answer questions from both point of views)
- ☐ Neither - this survey is not for me.

How many years of experience do you have as a data generator?

- ☐ Less than 1 year
- ☐ 1 to 5 years
- ☐ More than 5 years

How many years of experience do you have as a data consumer?

- Less than 1 year
- 1 to 5 years
- More than 5 years

Datasheet - Data generators

On the next page, you will be asked to provide your feedback about the **datasheet for datasets** from a data generator's point of view. To do so, please download the datasheet template available [here](#) and read it fully. As you read it, think about how easy or difficult it would be if you had to prepare a datasheet for one of your clinical research datasets. Once you are done reading it, please continue the survey. We recommend keeping that template open as you respond to the questions on the next page.

Note: You can find out more about the datasheet for datasets in the associated paper available [here](#) but it is not required for this survey.

How familiar were you with the datasheet before today?

- Not familiar at all
- I heard about it but have never prepared or used any
- I have prepared or contributed to one or more datasheets but never used any from other datasets
- I have used one or more datasheets from other datasets but never prepared one myself
- I have both prepared/contributed to one or more datasheets and used one or more datasheets from other datasets

How many datasheets have you prepared or contributed to?

- 1
- 2
- 3+

How many datasheets from other datasets have you used?

- 1
- 2
- 3+

Evaluate each section of the datasheet below from a data generator's point of view.

	As a data generator, how easy or difficult would it be for you to provide the information requested in this section of the datasheet if you had to provide it for one of your clinical research datasets?			
	Very Difficult	Difficult	Neutral	Easy
Motivation	☐	☐	☐	☐
Composition	☐	☐	☐	☐
Collection Process	☐	☐	☐	☐
Preprocessing/cleaning/labeling	☐	☐	☐	☐
Uses	☐	☐	☐	☐
Distribution	☐	☐	☐	☐
Maintenance	☐	☐	☐	☐

How would you rate the overall ease of preparing a datasheet?

- ☐ Very Difficult
- ☐ Difficult
- ☐ Neutral
- ☐ Easy
- ☐ Very Easy

What information is not asked in the datasheet but you think is important when documenting a clinical research dataset? Think about information you consider critical for transparently documenting your dataset. Also think about information you would want a user of your dataset to have for responsibly developing AI/ML models (e.g., avoid biases). Type "N/A" if none.

Please provide any other comments you may have about the datasheet.

Thanks for completing the survey so far. Would you like to review another data documentation approach?

Yes, let's do one more!

No, I'd like to stop here (your responses will be submitted when you click the "Next" button)

Healthsheet - Data generators

On the next page, you will be asked to provide your feedback about the **healthsheet** from a data generator's point of view. To do so, please download the healthsheet template available [here](#) and read it fully. As you read it, think about how easy or difficult it would be if you had to prepare a healthsheet for one of your clinical research datasets. Once you are done reading it, please continue the survey. We recommend keeping that template open as you respond to the questions on the next page.

Note: You can find out more about the healthsheet in the associated paper available [here](#) but it is not required for this survey.

How familiar were you with the healthsheet before today?

Not familiar at all

I heard about it but have never prepared or used any

I have prepared or contributed to one or more healthsheets but never used any from other datasets

I have used one or more healthsheets from other datasets but never prepared one myself

I have both prepared/contributed to one or more healthsheets and used one or more healthsheets from other datasets

How many healthsheets have you prepared or contributed to?

1

2

3+

How many healthsheets from other datasets have you used?

1

2

3+

Evaluate each section of the healthsheet below from a data generator's point of view.

	As a data generator, how easy or difficult would it be for you to provide the information requested in this section of the healthsheet if you had to do so for one of your clinical research datasets?			
	Very Difficult	Difficult	Neutral	Easy

Thanks for completing the survey so far. Would you like to review another data documentation approach?

Yes, let's do one more!

No, I'd like to stop here (your responses will be submitted when you click the "Next" button)

Datasheet - Data generators and consumers

On the next page, you will be asked to provide your feedback about the **datasheet for datasets** from a data generator and a data consumer's point of view. To do so, please download the datasheet template available [here](#) and read it fully. As you read it, think from a data generators perspective about how easy or difficult it would be if you had to prepare a datasheet for one of your clinical research datasets. Also think from a data consumer's perspective about how useful the information requested in the datasheet would be to you if a datasheet was provided with a clinical research dataset you were using for responsibly developing an AI/ML model. Once you are done reading it, please continue the survey. We recommend keeping that template open as you respond to the questions on the next page.

Note: You can find out more about the datasheet for dataset in the associated paper available [here](#) but it is not required for this survey.

How familiar were you with the datasheet before today?

- Not familiar at all
- I heard about it but have never prepared or used any
- I have prepared or contributed to one or more datasheets but never used any from other datasets
- I have used one or more datasheets from other datasets but never prepared one myself
- I have both prepared/contributed to one or more datasheets and used one or more datasheets from other datasets

How many datasheets have you prepared or contributed to?

- 1
- 2
- 3+

How many datasheets from other datasets have you used?

- 1
- 2
- 3+

Evaluate each section of the datasheet below from a data generator's point of view.

	As a data generator, how easy or difficult would it be for you to provide the information requested in this section of the datasheet if you had to prepare it for one of your clinical research datasets?			
	Very Difficult	Difficult	Neutral	Easy
Motivation	☐	☐	☐	☐
Composition	☐	☐	☐	☐
Collection Process	☐	☐	☐	☐
Preprocessing/cleaning/labeling	☐	☐	☐	☐
Uses	☐	☐	☐	☐
Distribution	☐	☐	☐	☐
Maintenance	☐	☐	☐	☐

How would you rate the overall ease of preparing a datasheet?

- Very Difficult
- Difficult

- Neutral
- Easy
- Very Easy

What information is not asked in the datasheet but you think is important when documenting a clinical research dataset? Think about information you consider critical for transparently documenting your dataset. Also think about information you would want a user of your dataset to have for responsibly developing AI/ML models (e.g. avoid biases). Type "N/A" if none.

Evaluate each section of the datasheet below from a data consumer's point of view.

	As a data consumer, how useful or not would the information requested in this section of the datasheet be to you if it was provided for a clinical research dataset you use to develop an AI/ML model? Not useful at all Not useful Neutral Useful
Motivation	
Composition	
Collection Process

How would you rate the overall usefulness of a datasheet if it was available for a clinical research dataset you were using to develop an AI/ML model?

- Not useful at all
- Not useful
- Neutral
- Useful
- Very useful

What information is not asked in the datasheet but you think is important to you when using a clinical research dataset for developing an AI/ML model? Think of information you would want for developing models responsibly (e.g., avoid biases). Type "N/A" if none.

Please provide any other comments you may have about the datasheet.

Thanks for completing the survey so far. Would you like to review another data documentation approach?

Yes, let's do one more!

No, I'd like to stop here (your responses will be submitted when you click the "Next" button)

Healthsheet - Data generators and consumers

On the next page, you will be asked to provide your feedback about the **healthsheet** from a data generator and a data consumer's point of views. To do so, please download the healthsheet template available [here](#) and read it fully. As you read it, think from a data generator's perspective about how easy or difficult it would be if you had to prepare a healthsheet for one of your clinical research datasets. Also think from a data consumer's perspective about how useful the information requested in the healthsheet would be to you if a healthsheet was provided with a clinical research dataset you were using for responsibly developing an AI/ML model. Once you are done reading it, please continue the survey. We recommend keeping that template open as you respond to the questions on the next page.

Note: You can find out more about the healthsheet in the associated paper available [here](#) but it is not required for this survey.

How familiar were you with the healthsheet before today?

Not familiar at all

I heard about it but have never prepared or used any

I have prepared or contributed to one or more healthsheets but never used any from other datasets

I have used one or more healthsheets from other datasets but never prepared one myself

I have both prepared/contributed to one or more healthsheets and used one or more healthsheets from other datasets

Accountability document - Data generators and consumers

On the next page, you will be asked to provide your feedback about the **accountability documentation** from a data generator and a data consumer's point of view. To do so, please read fully the accountability documentation template available [here](#). It consists of three parts: Dataset Requirements Specification, Dataset Design Document, and Dataset Testing Report). As you read it, think from a data generator's perspective about how easy or difficult it would be if you had to prepare an accountability documentation for one of your clinical research datasets. Also think from a data consumer's perspective about how useful the information requested in the accountability documentation would be to you if an accountability documentation was provided with a clinical research dataset you were using for responsibly developing an AI/ML model. Once you are done reading it, please continue the survey. We recommend keeping that template open as you respond to the questions on the next page.

Note: You can find out more about the accountability

documentation in the associated paper available [here](#) but it is not required for this survey.

How familiar were you with the accountability documentation before today?

Not familiar at all

I heard about it but have never prepared or used any

I have prepared or contributed to one or more accountability documentation but never used any from other datasets

I have used one or more accountability documentation from other datasets but never prepared one myself

I have both prepared/contributed to one or more accountability documentation and used one or more accountability documentation from other datasets

How many accountability documentation have you prepared or contributed to?

1

2

3+

How many accountability documentation from other datasets have you used?

1

2

3+

Evaluate each section of the accountability documentation below from a data generator's point of view.

	As a data generator, how easy or difficult would it be for you to provide the information required in this section of the accountability documentation if you had to provide it for one of your client research datasets?			
	Very Difficult	Difficult	Neutral	Easy
Dataset Requirements Specification (Appendix A in the template)	☐	☐	☐	☐
Dataset Design Document (Appendix B in the template)	☐	☐	☐	☐

	As a data generator, how easy or difficult would it be for you to provide the information requested in this section of the accountability documentation if you had to provide it for one of your clinical research datasets?			
	Very Difficult	Difficult	Neutral	Easy
Dataset Testing Report (Appendix C in the template)	☐	☐	☐	☐

How would you rate the overall ease of preparing an accountability documentation?

- ☐ Very Difficult
- ☐ Difficult
- ☐ Neutral
- ☐ Easy
- ☐ Very Easy

What information is not asked in the accountability documentation but you think is important when documenting a clinical research dataset? Think about information you consider critical for transparently documenting your dataset. Also think about information you would want a user of your dataset to have for responsibly developing AI/ML models (e.g. avoid biases). Type "N/A" if none.

Evaluate each section of the accountability documentation below from a data consumer's point of view.

	As a data consumer, how useful or not would the information requested in this section of accountability documentation be to you if you were provided with a clinical research dataset to use to develop an AI/ML model?			
	Not useful at all	Not useful	Neutral	Useful
Dataset Requirements Specification (Appendix A in the template)	☐	☐	☐	☐
Dataset Design Document (Appendix B in the template)	☐	☐	☐	☐

	As a data consumer, how useful or not would the information requested in this section of accountability documentation would be to you if you were provided with a clinical research dataset to use to develop an AI/ML model?			
	Not useful at all	Not useful	Neutral	Useful
Dataset Testing Report (Appendix C in the template)	☐	☐	☐	☐

How would you rate the overall usefulness of an accountability documentation if it was available for a clinical research dataset you were using to develop an AI/ML model?

- ☐ Not useful at all
- ☐ Not useful
- ☐ Neutral
- ☐ Useful
- ☐ Very useful

What information is not asked in the accountability documentation but you think is important to you when using a clinical research dataset for developing an AI/ML model? Think of information you would want for developing models responsibly (e.g., avoid biases). Type "N/A" if none.

Please provide any other comments you may have about the accountability documentation.

Thanks for completing the survey so far. Would you like to review another data documentation approach?

☐ Yes, let's do one more!

No, I'd like to stop here (your responses will be submitted when you click the "Next" button)
